

With unique magnetic circuit design, filter the micro magnetic substance and mineral substance from the material by strong magnetic force, such as clods, pumice, stone, brick chippings and so on, so that to clean up the weak magnetic substance in the material effectively.

磁辊采用独特的磁路设计，通过其强大磁吸力将原料中土块、轻石、石头、砖屑等带有微磁性的物体及矿物质轻易吸附，从而高效清除原料中的弱磁性物质

## Benefits 产品优点

With joint spindle head to connect with motor

Use the magnetic roller in conjunction with belt to filter the magnetic impurities automatically

联动轴头设计，可与电动机连接  
配合输送带使用，自动分离磁性杂质

## Technical data 技术参数

Magnetic performance: 15'000Gs

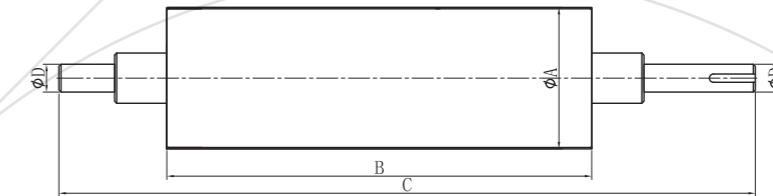

Materials of housing and other parts: 304 stainless steel/316 stainless steel

Surface finish: Polished

磁性强度：15'000Gs

壳体及其他部件材质：304不锈钢/316不锈钢

表面处理：抛光

Model No. 型号	Dimension 磁辊尺寸 AXBmm	Length 长度 Cmm	Diameter 轴径 Dmm
SCXCG-1030	101.6X305	500	20
SCXCG-1042	101.6X417	612	20
